sharp, high-life blade*

STURDY, FLAT BASE
*Provides protection
under cut*

Rolled Materials Cutter

- Solid base prevents damage to surface under cut
- Push-away cutting for added safety
- Easy, tool-free blade change

EASY. SAFE. SIMPLE.

Makes Cutting Safe and Efficient

The Rolled Materials Cutter is a hand-held cutter that safely cuts many types of materials from a roll while protecting the surface beneath. The cutter comes preloaded with an ultra-sharp, long-life 45mm carbide rotary blade. The fixed blade has 12-cutting positions for less blade changes and increased efficiency. The large, ergonomic handle has a comfortable and sturdy grip.

Cuts

- Carpet
- Temporary floor covering
- Schluter-Ditra membrane
- Landscape fabric
- House wrap
- Linoleum and more
